

YUGOSLAVIA - BASKET BALL

Director(s): Hérade FEITZ

They say that the best of European basket ball can be found in an area between Croatia, Bosnia and Yugoslavia. At any rate, that's where Yugoslavia's best players hail from. It is also said that this area 'produces' the tallest men in Europe... maybe in the world. One thing is sure, however, the Yugoslav national team ends up on all the World and Olympic podiums. The champions themselves tell how the secret of their success is handed on... a success that goes far beyond the question of height!
